

## Community Health Free Clinic Volunteers

### The Value of Volunteers

The backbone of Community Health Free Clinic is its volunteers. With their expertise, as well as the growing number of students rotating through all departments, we have continued to hone our service to the patients, enabling us to provide more efficient, quality care. We are pleased to provide a rewarding experience for volunteers and are fortunate to maintain our 600 dedicated workers. Giving back to their community and establishing clinic friendships have made our volunteer group a great family which serves with compassion and dedication.

### 2009 Community Health Free Clinic Volunteers

Laura Aarhus	Judy Blank	Judy Cowan, RN

**Titles indicate our active health professionals who are licensed or registered**

**We are very grateful for your volunteer time. Please take the time to read the thank you letters we receive from grateful patients who speak of your expertise and kindness (they are posted in the break rooms). Your committed schedules as well as your willingness to fill in for extra shifts when called, adding up to 31,719 hours, are so very much appreciated.**

**Our staff, volunteers and donors are advocates for those without a voice needing medical care!**
